Employer's Evaluation of Progress – Academic Year 2020/21

Student Name:	Leo Gardner
Employer:	Cardiff University IT
Placement Supervisor's Name:	David Hopkins
Supervisor's position:	Web developer
Review: <i>*please delete as appropriate</i>	1 st Visit / 2 nd Visit / 3 rd Visit / 4 th Visit
Date:	

The questions relate to the student's progress in the current review period:

Are you satisfied with the student's progress in this review period? Yes

(Please delete as appropriate)

Please comment on the student's overall performance and on how well you feel the student is carrying out their objectives/tasks:

Leo has continued to work on his frontity / wordpress project. He has been bug fixing issues and getting the project reading to be deployed to a production server.

He has also spent a considerable amount of time adding unit testing to the School management system. He has managed to attain high code coverage on a number of sections of the application and in doing so identified a number of bugs within the application.

What do you think are the student's main strengths?

Again much the same as previous reviews. Leo has been a great asset, we are able to assign him tasks knowing that he will get them done on time and to a high standard.

Leo has demonstrated the ability to research potential solutions to an assigned task and has demonstrated the ability to implement the solution within a given time frame.

Are there any areas that you think the student needs to improve?

No major improvements required at this time. Leo's performance has been very good. As a small minor point I would encourage Leo to speak out more a task he is working on is blocked or he needs assistance.

Are there any general comments you wish to make?

We would like to thank Leo for all of his hard work during his internship with us. It was a challenging year due to Covid restrictions and working remote for the duration but Leo has excelled in all tasks and projects he was given. He has a great work ethic and its been a pleasure to work with him.

We would like to wish him the best of luck in his future career.
